

# **I don't believe in Climate Change (A conversation overheard)**

I don't believe in climate change.

*Or gravity?*

*Or electricity?*

*Or night will follow day?*

We've always had droughts,  
Haven't we?

*But this one's really tough.*

It will rain eventually,  
Won't it?

*But will it be enough?*

And we have bushfires every year,  
Don't we?

*But not so big and not so bad.  
This year's been really rough.*

OK. So we'll build up our resilience, then.  
We Aussies, we are tough.  
And we have our Paris Carbon target.

*But will it be enough?*
