Lyrics for A Message for The Nationals (song version)

I've always been a Nationals voter Cause I live in the countery. But I started to look at you jokers.... And found: you don't look out for me!

You look after the Big Farmer – The big agri-business blokes. And you look after the mining companies, But not us little folks.

You look after the big developers, Who just want to make a buck. You're not interested in us small folks. It makes me want to chuck.

So, I used to be a Nationals voter Cause I live in the countery. But I started to look at you jokers.... And found: you don't look out for me!

You're not listening to us farmers, Who say life can be pretty grim. You're not listening to the farmers, Who know there's this climate change thing.

We are the ones that will suffer: Less rain, more dust, more floods. And I still wake in the night and shudder When I remember those bushfires, Bud.

I used to be a Nationals voter Cause I live in the countery. But I started to look at you jokers.... And found: you don't look out for me!

So, start looking after the Climate, For the farmers, small business too. Look out for Regional Australians. OR WE WONT VOTE FOR YOU!

We won't look after you, mate If you don't look after us. So, start looking after the Climate Or we'll start to make a fuss!

Just start listening to the real folk Give us climate action too. Just start looking after OUR Climate OR WE WONT VOTE FOR YOU!
